To whom it may concern,

I am pleased to confirm that Camden Art Centre will host a live-streamed artist talk event at the gallery during Al Hopwood's Rescripting Initiative residency.

The project sounds fascinating and I'm excited to see how the residency develops. I'm also happy to offer curatorial and creative advice throughout. Al's fascinating artwork draws on research from psychology in ways that are both playful and serious. His projects are distinct, timely and unexpected and he's developed a practice that is genuinely interdisciplinary. His track record is clear evidence that he has consistently produced high quality, culturally significant work through this kind of residency model and we're delighted to be supporting him.

We wish him every success in in his Arts Council England application and we look forward to working with him.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'M. Clark', with a stylized, cursive script.
